The International Cooperation Expo

Sustainability, Best Practices and Business: the role of innovation

The success of business in development cooperation passes through sustainability:
The Sustainable Development Goals (SDGs) as opportunities for the private sector.

EXCO2019 is the first and only global expo dedicated to the innovative solutions provided by the actors of development cooperation:
national and international agencies, governments, financial institutions, civil society and in particular, the private sector.

During EXCO2019, the players active in the field and those willing to enter development cooperation, will have the possibility to meet financial Institutions, Government representatives, development agencies and international organizations, in order to engage in new business relationships aimed at creating partnerships to find solutions for sustainable development.

EXCO2019 is organized in three formats:

- Expo
- B2B
- Workshops & Conferences

The combination of such formats will offer all participants a comprehensive and structured model of business interaction.

exco2019

The International Cooperation Expo

exco2019

The International Cooperation Expo

Format #2: B2B

A structured program of meetings, coordinated through an online APP – MY AGENDA – will create fruitful matchings among enterprises, buyers and all the actors of International Cooperation.

The matchings through the MY AGENDA app, may generate agreements, partnerships, initiatives, projects, investments and the coordination of strategies.

Format #3: Workshop & Conferences

EXCO2019 is a unique platform composed of workshops and conferences centered around the main theme of Job creation and innovation for sustainable development.

The organization of this platform will be supported by the “EXCO2019 Strategic Committee” composed by eminent experts from important sectors and institutions.

The program will be elaborated and delivered in due course: for more info visit
