

Victor Martynyuk

1980-1985

Student of the biology faculty of Simferopol state university. Majored in biochemistry.

1998-2001

Post-graduate student of the department of physiology and biophysics in the Simferopol State University.

1992

Obtained a philosophy doctor degree (PhD) in biology with specialization in physiology of human and animals. PhD dissertation: "Influence of Extremely Low Frequency Magnetic Fields on Time Organization of Physiological Processes".

1992-1996

Professor assistant and researcher of the biochemistry department of Simferopol State University.

1996-2001

Associate professor of the department of biochemistry of Simferopol state university.

2001-2005

Scientific secretary of the Crimean scientific centre of the National Academy of Sciences of Ukraine and Ministry of Education and Science of Ukraine.

2005 - 2008

Associate professor of the department of biophysics in Taras Shevchenko Kiev National University of Kyiv.

2008

Obtained a higher scientific degree Doctor of Biological Science with specialization in Biophysics.

Dissertation: "Influence of Magnetic Fields on Human and Animal Organism".

2008 – 2009: Professor of the Department of Biophysics in Taras Shevchenko Kiev National University of Kyiv.

2009 – present: Chair of the Department of Biophysics, Professor in Education-Scientific Center "Institute of Biology" of Taras Shevchenko Kiev National University of Kyiv.

2006 - 2011: Scientific secretary of Ukrainian Biophysical Society of Ukraine.

2011 - present: Vice-president of Ukrainian Biophysical Society of Ukraine.

From 2007 – present: Second editor-in-chief of scientific journal "Physics of the Alive".

There are about 100 scientific publications including two collective monographs on interdisciplinary problems.

I personally taught over 25 students. Among of them there are two winners of students competitions organized and sponsored by President of Ukraine, Parliament of the Crimean Autonomous Republic, Councils of Ministers of the Crimean Autonomous Republic and the National Academy of Sciences of Ukraine.

For the past five years I personally taught six philosophy doctors in biology with specialization in biophysics and biochemistry.
